Senetas appoints Qatar Partner - EMEA Enterprise Solutions

MELBOURNE, March 3, 2011 - Senetas Corporation Limited (ASX:SEN) announced today that it had appointed experienced Middle East systems integrators and professional services consultants, EMEA Enterprise Solutions W.L.L, as a reseller of its data protection solutions based on globally certified high-speed encryption technology.

Senetas CEO and acting chairman, John DuBois, said the presence of Senetas in Qatar through the EMEA group was a significant move since Qatar is one of the world's fastest growing economies and enjoys one of the highest per capita incomes in the world due to its rich oil and gas resources.

"As one of the first States in the region to embrace the 'knowledge economy', Qatar is highly progressive, concerned about providing secure data communications for its government and also for its commercial business environment, which includes global enterprises. We took a strategic decision to work with a partner in Qatar, given the developing market and since it is a Mid-East economic role-model, exemplified by its Qatar Financial Centre.

"EMEA Solutions has long and extensive experience in business consulting and technology-based solutions that enhance data security, so they were clearly a good fit for Senetas," Mr DuBois said. He said EMEA had already identified opportunities in Qatar to secure high-speed business communications, to provide Software-as-a-Service (SAAS) secure cloud applications and to develop new data security solutions.

EMEA Enterprise Solutions Chairman, Mr Faleh Al Qahtani, has welcomed the strategic alliance describing Senetas data protection products and its focus on ensuring secure information as "world class".

"I look forward to sharing with the local market to ensure high level security and data protection for banking, government, telcos and other major services. Our alliance brings a new global product to Qatar, allowing it to be at the forefront of data protection.

"Senetas brings with it an outstanding international product and a team that can provide business-critical high quality data protection and encryption solutions," Mr Al Qahtani said.

About Senetas

Senetas Corporation Limited (ASX Code: SEN) is an Australian ASX-listed public company and is the world's leading developer and supplier of high speed network encryption hardware products. Its products are accredited to the highest international government security standards (FIPS and Common Criteria). Senetas is now represented in more than 40 countries and customers include Government, military and law enforcement agencies in Australia, USA, Middle East, Asia, and the EU, as well as leading financial institutions.

About EMEA Enterprise Solutions:

EMEA Enterprise Solutions W.L.L is a model IT and Security Solutions Company based in Doha, Qatar, that provides end to end solutions for any business, small, medium and large.
